To: Jose Torres/R6/USEPA/US@EPA

Mr. Torres

Myself and my family are very concerned about the proposed injection well waste disposal site.

As you know, the site is in the middle of a residential area. Further, there are 505 abandoned oils within a 2.5 mile radius of the site. If the wells contaminate the surrounding ground water, this could potentially affect the water supply of 54 counties, including the supply to our home.

The EPA's assistance would be appreciated; and, I believe warranted.
